

Safety Instructions "Glowstick"

Item No. 0400xx 15 cm

Keep product in original package until ready to use. Do not cut or open the glowstick. In case of contact with skin or eyes, rinse immediately with plenty of water under running water and wash with soap. Do not drink or inhale the contents. In case of persistent complaints and irritation, consult a doctor. Glow sticks contain no toxic substances.

Not Suitable for children under 3 years.

Description:

The classic for marking and signalling, in case of emergency, at parties or simply for camping and outdoor life. The glow stick works well under water and in worst conditions. It is always a highlight at night walks or at the camp to mark paths and obstacles. Glows first very brightly for about 1/2 hour, then about 3 hours with normal light and for the next 8 hours glows dimly. Always keep in a closed bag, dark and cool. Shelf life: unopened ca. one year.
